FREE SCHOOL BOOKS MANDATORY WITHOUT MONEY TO BUY THEM

Superintendent of Public Instruction J. E. Bray, who presided over the sessions of deputy superintendents in Carson, reported that the meeting found the schools of Nevada in very good shape and that the growth of the school census indicated that Nevada is rapidly adding to her population. In the past year the school census taken in April shows 13,075 children of school age, which is approximately 600 more than last year. In the present year, he says, he believes the growth will be from 600 to 1000 more.

Subjects discussed at the meeting included district institutes and a proposed revision of the course of study. District institutes have been held in the odd years in each of the five districts and commonly at Thanksgiving time. It is probable the time will be made earlier, possible in October.

The revision in the course of study considered is not a radical one, but merely affects some features in the course. No change in text books can be made until 1915. Superintendent Bray said that the provision in the law that free text books be supplied by school districts

had been given some examination and would probably be discussed in a letter to the public and officers to be issued by the department of instruction soon.

While Superintendent Bray did not care to discuss this subject in advance, it is known that the difficulty lies in the question of providing money for this purpose. The law is mandatory that pupils be furnished books and supplies, but no tax was levied for the purpose and no provision made in the county levies. It will be in effect this term beginning September. Most of the counties will have plenty of money in the funds, but if that is used there will follow a shortage for current expenses.

Speaking on the apportionment of school funds Superintendent Bray said it was about \$10,000 less than a year ago, and about \$6000 less than last January. It is made semi-annually. The deficiency is explained by the fact that an extra school tax levied some time ago was held up by litigation. A year ago the school fund received part of the extra school fund levy and then the next legislature repealed the provision. Later the supreme court decided

the big plant, was in town Saturday en route to San Francisco, Humboldt Star.

If you bought nothing but advertised goods during the next twelve months, you'd reduce the cost and raise the standard of living—surprised?

The big Glasgow & Western company at Golconda, built twenty years ago at a cost of approximately a quarter of a million dollars and upon which probably as much more has been expended since in additions and changes has been sold for junk. The big plant, representing an enormous expenditure of Scotch and English capital, is to be dismantled by the purchaser, the Sugarman Iron and Metal company of San Francisco, and the material and machinery will be sold on the ground.

The big junk deal, the largest ever made in the state, was closed in Salt Lake last week between Meyer Sugarman of the purchasing company and the representative of the Glasgow & Western. M. L. Siegel of Winnemucca took a prominent part in the deal, upon which he has been working for some time.

The work of dismantling the big plant is to be started at once and will not be completed for several months. Included in the sale were a thirty-ton sampling mill, hardly used, at all, and a complete five-stamp quartz mill which was never set up. These will be sold at but a fraction of their cost, together with a million feet of lumber, two million brick, one hundred tons of corrugated iron, several railroad ore cars and an enormous amount of mining and milling machinery. This sale offers a wonderful opportunity for the purchase of cheap building material and milling machinery.

The sale of the plant is the outcome of a recent shake-up, following an investigation of the affairs of the Glasgow & Western by the Scotch and English capitalists who have been putting up money for years without seeming to have an idea or care as to how it was being expended. It is said the investigation showed that there has been gross mismanagement of the company's affairs by the chief representatives in the United States. In figuring up the company's assets the Golconda plant, which has been idle for years and was never run except spasmodically, each time after useless changes costing thousands, was classed as 'junk' and has been sold as such. Meyer Sugarman, the representative of the company which bought

aided the provision was legal and that the counties which did not levy the amount must pay it. This amount held back was counted on this year, but will be made up next January, so as to balance the account.

Another source which is expected to increase revenue is the extra interest from money invested in 5 per cent bonds rather than 3 or 4 per cent in the past.

The state board of revenue has been reinvesting 3 and 4 bond money in bonds bringing 5 per cent. The board consists of the board of education, including the governor, president of the university and superintendent of public education, and the treasurer and attorney general. There are \$380,000 now invested in Nevada state bonds which are irredeemable and pay 5 per cent. Recently approximately \$300,000 more of the school fund was invested in California 5's. There is still a large amount of the school fund invested in United States bonds netting 3 to 3½ per cent on the average to equal safe state bonds netting 5 per cent. The investment in bonds of Clarke and other counties is now under consideration.

Expense Stops When Your Cooking Stops

That is one of the big advantages of the

New Perfection Oil Cook-stove

When you are through cooking you simply turn out the flame. There is no waste of fuel. And yet you can have full heat again when it's wanted, by merely striking a match.

The NEW PERFECTION COOK STOVE is much neater and cleaner than an ordinary range; no dirty fuel; no ashes. Ask your dealer for the New Perfection Stove. It bakes, broils, roasts or toasts.

DON'T STAY GRAY! SAGE TEA WILL DARKEN YOUR HAIR BEAUTIFULLY

A Mixture of Sage and Sulphur Prevents Dandruff and Falling Hair.

When you darken your hair with Sage Tea and Sulphur no one can tell, because it's done so naturally; so evenly. It is also splendid to remove dandruff, cure itching scalp and stop falling hair.

Preparing this mixture, though, at home is a messy and troublesome task. For about 50 cents a bottle you can buy at any drug store the ready-to-use tonic called, "Wyeth's Sage and Sulphur Hair Remedy." Some druggists put this mixture up themselves but make it too sticky, so insist you want "Wyeth's" then

there'll be no disappointment.

You just dampen a sponge or soft brush with "Wyeth's Sage and Sulphur" and draw it through your hair, taking one small strand at a time. Do this at night and by morning all gray hair disappears and after another application or two becomes beautifully darkened and more glossy and luxuriant than ever. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and you'll look years younger. Inquiry shows all pharmacists in town here sell lots of it.
